

Test Yourself! – TCP/IP Knowledge Answers

Below are the answers to the TCP/IP “Test Yourself!” quiz.

We recommend that students wishing to take any of the following courses:

- Track 2 – Firewalls, Perimeter Protection, and VPNs
- Track 3 – Intrusion Detection In-Depth
- TCP/IP for Firewalls and Intrusion Detection (Day 1 of the Track 2 and Track 3 course)

be able to score 70% or higher (42 or more correct out of 60 questions) before enrolling.

While this quiz alone cannot completely measure a student’s readiness, it should be used as a guide to estimate your preparedness and help you get the most out of your SANS course.

If you score less than 70% you may wish to consider:

- additional self-preparation before class;
- taking a more introductory course, such as SANS Security Essentials, or Information Security Officer Training.

Quiz Answers

1. a
2. T
