POINTS OF CONCERN

1. Basic policy:

We will take into full consideration safety measures for work and make an effort to minimize inconvenience to neighborhood. We will comply with relevant regulations and laws during the works.

2. Work hours and holidays:

- From 8:00 a.m. to 6:00 p.m. (excludes 30 minutes each of preparatory and finishing work)
- No work on Sunday
- No major construction work that accompany noise and vibration on National holidays except in case of emergency and/or requested by authorities. In such cases we will inform you in advance.

3. Measures for safety, noise, vibration and dust:

- ① Safety practice ... We will secure safety for neighborhood by erecting temporary fences around the site.
- ② Controlling noise and vibration ... It is unfortunate that the noise and vibration in this kind work are inevitable but we will take necessary actions to minimize noise and vibration by use of sound insulation panels, sheets, and low noise equipment and machines.
- ③ Dust reduction ... We will take necessary actions such as spraying water to minimize dust from demolition work.

4. Vehicle route management:

We will control traffic to the site and clean the roads along the route.

5. Work site management:

We will keep an on-site manager during work hours. The on-site manager will be responsible for preventing fire, accidents or other incidents.

6. Safety measures for surrounding properties:

We will secure safety measures for surrounding buildings to be safe from harm by demolition work. If the damage is done caused by the work, we will immediately take remedial actions and will, after consultation, repair or restore the damage to original conditions.

7. Asbestos removing:

We will remove asbestos-treated materials in compliance with laws and regulations.

8. Other points to consider:

Any matter not stipulated in this POINTS OF CONCERN or any doubt arising with respect to any provision shall be resolved upon mutual consultation each other.
