

EVENING WITH THE ARTS PROVIDES GREAT ENTERTAINMENT

Marcia Sacks, MC for the "Evening with the Arts" at the Homeowners Association meeting last month, stated "There's more talent per square block in Horizon City than in all of El Paso," and this proved to be true. Many beautiful paintings and crafts were on display and the musical program was outstanding.

Perhaps the most unusual solo was by David Duimich who played his own composition, "Tobago", on the steel drum.

David explained this drum was created in Trinidad when the use of animal skins on drums was made illegal they began using small gallon paint cans and just kept getting bigger ones. David's drum is made of an oil drum.

It has 3 octaves, the pitches made by indentations. (See picture on page 14.) He became fascinated about this instrument when he first saw it at

EVENING WITH THE ARTS

(from page 10)

a Percussive Art Society Convention when he was part of the UTEP percussion ensemble. David and his drum are popular in many places in El Paso and Juarez.

**THE STEEL DRUM SHOWING
INDENTATIONS AND OCTAVES**

So successful was this 2nd annual Evening with the Arts that Horizoners are anxiously awaiting the next one.

The committee in charge are to be highly commended. They are: Bruce Crippen, chmn., Marcia Sacks, music; Lucia Sybert and Ann Perez, art & crafts; stage hands who did so well with staging, spot and house lights: Matt Jennings, Marv Hutchinson, Fran Dertina and Sander Sacks; and the good cooperation from Horizon Country Club.
